At different stages of life, we need different types of medical care and support. The Mercy Continuing Care Network provides a range of services, programs and facilities in Western Massachusetts to meet these diverse needs:

**Skilled Nursing Facilities (Nursing Homes)**

Three accredited facilities that provide skilled nursing, short-term rehabilitation and long-term care:

- **Mary’s Meadow at Providence Place**—With four separate houses, Mary’s Meadow provides dignified small-home living situations that ensure personal privacy and space
- **Mount Saint Vincent Care Center**—A homelike facility in the Ingleside section of Holyoke providing short-term rehabilitation care for medically complex patients and long-term care
- **Farren Care Center**—The only facility of its kind in the state, Farren combines skilled nursing and long-term rehabilitative services with expert mental health care

**Residential Care Facilities (Rest Homes) and Respite Care**

Two outstanding facilities that offer gracious settings for supportive living with 24-hour assistance and short-term respite care:

- **Beaven Kelly Home**—A Victorian home in a serene country setting in Holyoke
- **Saint Luke’s Home**—A vibrant inner-city home with easy access to Springfield’s cultural and social activities

**Mercy Home Care**—Expert care to help people recover from an acute illness or injury in the comfort of their own home, and to manage chronic conditions in order to prevent hospitalization

**Adult Day Health of Westfield**—A comprehensive day program that offers socialization and medical management, particularly for those with dementia

**Providence Place at Ingleside**—An exceptional supportive living retirement community in Holyoke, offering rental apartments and an array of amenities for seniors

**Mercy Lifeline**—Helping people maintain their independence and safety by providing medical emergency response at the touch of a button

**Mercy LIFE, a Program of All-inclusive Care for the Elderly (PACE)**—Highly coordinated care and a full range of services to help seniors continue to live safely at home and avoid nursing home care

**Mercy Companions**—Private-duty home care to help people stay at home safely

**Mercy Hospice**—Compassionate care and support at the end of life

Greater Springfield Senior Services, Inc. ElderGuide
These terms are binding

PLEASE NOTE: The listing of resources in ElderGuide is for referral purposes and inclusion of an agency or program does not imply endorsement. The success of the ElderGuide has prompted many organizations to request inclusion. However, limited resources prohibit our ability to expand the scope much beyond its current number of pages. Our policy of inclusion incorporates criteria established by the Alliance of Information & Referral Systems, Inc. (AIRS), a nationwide information and referral system which sets the standard for I&R programs.

Although extensive research, data collection and editing were conducted, Greater Springfield Senior Services, Inc. (GSSSI) makes no representation that this publication is 100 percent complete or accurate. Programs frequently change, and errors and omissions, whether typographical, clerical or otherwise, do sometimes occur. GSSSI does not assume liability and disclaims any liability to any party for any loss or damages caused by errors or omissions in this publication, whether such errors or omissions are the result of negligence, accident or any other cause.

To update, correct, or add to the directory listings, please contact Greater Springfield Senior Services’ Information and Referral department at 413-781-8800.

GSSSI is an AA/EOE.
Its programs are funded in whole, or in part, by contracts with the Massachusetts Executive Office of Elder Affairs, the Older Americans Act, and private donations.

COMMUNITY RESOURCES

Aging Services Access Points

“ASAPs” are a network of 27 state funded nonprofit organizations in Massachusetts that provide a variety of programs and services to help people 60 years of age and older, and younger disabled individuals, to remain living at home independently for as long as possible. Some are also federally designated Area Agencies on Aging. Eligibility for different programs varies, so call the local ASAP for additional information. To locate an ASAP, call 1-800-AGE-INFO.

Services offered by ASAPs include: personal care, light housekeeping, adult day care, care management and coordination, caregiver support, information and referral, meals-on-wheels, and protective services for victims of elder abuse.

**Caregiver Support Program**

Greater Springfield Senior Services’ Caregiver Support program can provide caregivers with the essential training and support needed to help them sustain their efforts. Services may include:

- Helping caregivers determine what services might be beneficial to them and providing assistance with accessing those services.
- In-home consultation by a social worker who will complete a comprehensive evaluation of the older individual and identify the needs of the family/caregiver.
- Respite services for caregivers needing time off from their caregiving responsibilities.
- Limited financial assistance for things such as ramp construction, installation of safety railings, chores service and home maintenance projects.
- Group training programs on caregiver topics.

**Eligibility:**

- Anyone caring for a spouse, parent, other relative or friend who is age 60+, or has Alzheimer’s or a related disorder.
- Grandparent, age 55 or older, caring for a grandchild, age 18 or younger.
- Anyone age 55+ caring for a disabled individual who is not his or her child.
- While there is no income eligibility, priority consideration will be given to persons with the greatest social and economic need.

Although there are no charges for these services, donations are gratefully accepted. For additional information, contact Greater Springfield Senior Services’ Information & Referral department, 413-781-8800.

*NOTE: There is a new special section for caregivers in ElderGuide on page 71.*

**Grandparents Raising Grandchildren**

There is a resource guide available online that includes legal, financial, health, housing, and childcare information. Search the internet for a Guide to Relative Caregivers Western MA or call 413-781-8800.

**Additional Helpful Websites:**

- www.mass.gov

**Companion Services**

For elders who may need assistance with grocery shopping, writing or reading a letter, occasional transportation or socialization, a companion program may offer a solution. For more information about eligibility requirements, call the local Council on Aging Many congregations have home mission programs such as friendly visitors. Call the local church or parish for more information.
Jewish Family Service of Western Mass. TAP-In!
1160 Dickinson Street
Springfield, MA 01108
413-455-1936 ext. 104

A free telephone assurance program for elders in Springfield, Longmeadow, and East Longmeadow. Weekly good cheer phone calls by trained volunteers will enable elder participants to interact with a caring “tele-buddy” and to learn about helpful community resources.

**Councils on Aging/Senior Centers**

Councils on Aging (COA) offer a wide range of health, social, recreational and educational activities for seniors in their communities. Some may also offer home delivered meals and congregate meal programs, foot care, insurance counseling from SHINE volunteers, tax preparation, support groups, information and referral, or a medical equipment “loan closet.” Outreach workers or town nurses may be available for home visits. In some instances, they may also have volunteers to assist with grocery shopping.

Driving Resources

Weldon Center for Rehabilitation
Driving Advisement Program
175 Carew Street
Springfield, MA 01104
413-748-6880

Offers a coordinated program to assess a driver’s ability to drive safely. The program evaluates:

- Vision and perception
- Physical status
- Mobility
- Upper and lower extremity reaction time
- Traffic sign/situation identification and interpretation
- Cognition – including problem solving, attention and memory
- Adaptive equipment

To receive an evaluation, obtain a physicians’ prescription stating “occupational therapy evaluation for functional community mobility” and include a medical diagnosis. This is mandatory for insurance coverage.

Test results are sent to the Registry of Motor Vehicles (RMV).

Self-pay only.

Handicapped Plates/Placards

Registry of Motor Vehicles
Director of Medical Affairs
P.O. Box 55889
Boston, MA 02205-5889
857-368-8000 from area codes 339 / 617 / 781 / 857 and outside Massachusetts
800-858-3926 all in-state area codes with the above exceptions
877-768-8833 TTY
www.massrmv.com

Special placards and plates are available for vehicles that transport medically disabled drivers and passengers. The applicant is required to complete the first page; the second page must be completed by a Massachusetts licensed physician, chiropractor or nurse practitioner. The applicant must mail both pages to the RMV Medical Affairs Bureau or brought to a RMV branch office.

NOTE: Disabled Veteran Plates are available through the RMV for one vehicle owned by a veteran who has impairment(s) as certified by the Veteran’s Administration that total at least 60% service connected and be impairments which otherwise qualifies one for disabled parking.
Medical Evaluations

The Registry of Motor Vehicles has a medical evaluation form for doctors to complete for patients who may have medical conditions that compromise their ability to drive safely. This usually triggers a request from the RMV to have the driver retested. This may be an eye exam or a road test.

Depending on the nature of the medical condition, the RMV may ask for a voluntary surrender of the license. If there is a history of moving violations or other traffic accidents, the RMV may revoke the license. The Medical Affairs division of the Registry can accept unsafe driver reports from doctors, family members, law enforcement or other interested third parties. Reports should be sent to the RMV Director of Medical Affairs at the above address.

NOTE: The RMV website has a wealth of information and resources for older drivers and for families concerned about unsafe driving. Various forms and applications may be downloaded: www.massrmv.com.

Other good sources of information are: www.SeniorDriving.AAA.com and www.aarp.org.

Funeral Services

Funeral Consumers Alliance of Western Massachusetts
P.O. Box 994
Greenfield, MA 01302
413-774-2320
www.funeralconsumerswmass.org

Provides information about state regulations, average prices and consumer advice regarding memorial and funeral services.

NOTE: For veterans and their families, the following websites may be helpful: www.va.gov/ click on “Burials and Memorials” and www.mass.gov/veterans/ “Cemeteries and Honors.”

Homemaker & Other Home Help Services

Finding in-home services can be as easy as looking in the telephone directory under “Home Health Care-Providers & Services,” “Home Care Services,” and “Nurses, and Nursing Home Alternatives.” Finding that best one to meet your needs as well as your financial situation can be tricky. A few things to keep in mind about the different types of agencies:

Certified Home Health Care Providers are companies who provide “Skilled Care,” such as nursing, and physical, occupational and speech therapy, and who have met standards of care necessary to satisfy both state and federal regulatory bodies. They are routinely audited by the Department of Public Health to verify that they are adhering to these standards and regulations. In addition, if services are ordered by a doctor, they can bill Medicare, Medicaid and other insurances for services they provide.

Non-Certified Home Care Providers are companies who have not gone through the process to become certified. They cannot bill medical insurance and must be paid privately. Although these providers are not audited by regulators they do provide staff that is screened, supervised, covered by liability insurance, and usually, skills- and drug-tested.

For additional information, contact the GSSSI Information & Referral Dept., 413-781-8800.
NOTE: Enlisting the support of a Care Manager can provide peace of mind to families wanting to ensure the best possible care for their aging or disabled loved ones. These specialists may be trained and experienced in any of several fields related to care management, including nursing, gerontology, social work or psychology. They typically conduct a needs assessment and create a comprehensive care plan that works within the family’s resources. They may also:

- Locate providers and make arrangements for in-home care;
- Monitor care quality and communicate with family members;
- Assist with transitions from hospital or another facility to home or an assisted living facility and serve as a liaison with health and social services providers;
- Assist with home organization, relocation, travel arrangements and packing;
- Make referrals for legal, financial, or other professional services including home repair, pet care, movers and estate appraisals.

Geriatric care managers are privately paid. Medicare does not pay for this service, but some long-term care insurance policies may. Care managers may work by the hour or charge a flat fee for the assessment and an hourly fee after that. Rates vary widely and are usually in a range of $75 to $150 per hour.

The Aging Life Care Association provides helpful information about choosing and locating a Care Manager. Call 617-277-4669 or visit www.aginglifecare.org. Another source of information is: www.agingcare.com

Greater Springfield Senior Services, Inc.
66 Industry Avenue, Springfield, MA 01104  413-781-8800  www.gsssi.org

Provides services to eligible older residents of GSSSI’s twelve-town service area who need assistance so they may continue to live independently and safely at home. Fees for service are on a sliding fee scale based on income and are mandated by state regulation. Services may include: assistance with personal care, housekeeping, laundry, food shopping, meal preparation and adult day care. Eligibility:

- 60 years of age, or under 60 with a diagnosis of Alzheimer’s Disease and have a caregiver in need of respite services
- Have an assessed need for the service
- Annual gross income less than $27,636 for an individual; $39,104 for a couple (income amounts change every January 1)
- Individuals whose incomes exceed these limits and who have a daily caregiver may still be eligible for services through GSSSI’s Respite Program on a cost share basis.

Homemaker & Other Home Help Services –
MassHealth Funded

Adult Foster Care (AFC)

Provides a community-care setting for disabled adults 16 years of age or older who need ongoing assistance with activities of daily living (ADLs) and cannot safely live alone. AFC program staff match eligible participants with prescreened AFC care providers or work with pre-existing caregiver matches. Caregivers may be family members (except legally responsible relatives, including spouses), or non-family members. Host families are paid a tax-exempt monthly stipend. Participants must have MassHealth and chronic health conditions linked to their need for ADL assistance.
Personal Care Attendant Program (PCA)

A consumer-driven program which allows the consumer to have control over the design and delivery of their own personal care services. The consumer or a surrogate (designated adult) hires, trains and supervises the PCA worker. Eligible applicants can be any age, must have MassHealth Standard or CommonHealth, have a permanent or chronic disability that requires frequent hands-on assistance with activities of daily living (ADLs), and have a physician’s referral for the services.

**Support Groups**

Meeting with people who share similar concerns can offer a way to address a loss or significant change in health or circumstance. Groups usually meet regularly and give participants the opportunity to problem solve, learn from each other and offer mutual support. The group leader may either be a trained professional or a layperson with some personal experience related to the topic of interest. There are even online support groups and forums.

Support groups address a wide variety of issues such as bereavement, coping with a major illness, depression, low vision, relationships, spirituality, and substance abuse. Organizations linked to a specific illness often sponsor support groups for individuals afflicted by that condition as well as for their caregivers. Nursing homes, assisted living facilities, hospitals and Councils on Aging/Senior Centers may offer support groups as well.

The Pioneer Valley Transit Authority provides Senior Van Service and ADA Paratransit.

Service in addition to its fixed route bus in the following 24 member communities: Agawam, Amherst, Belchertown, Chicopee, Easthampton, East Longmeadow, Granby, Hadley, Hampden, Holyoke, Leverett, Longmeadow, Ludlow, Northampton, Palmer, Pelham, South Hadley, Springfield,
Sunderland, Ware, Westfield, West Springfield, Wilbraham, Williamsburg. Detailed route information available at www.pvta.com

**NOTE: Senior Van Service** is for people age 60 and older; **ADA Paratransit Service** is for people with disabilities of any age. The vans used for both are wheelchair accessible. As with all public transportation, trips can be the equivalent to the length of time it would take on the PVTA fixed-route bus, including transfers and wait time.

**ADA Paratransit Service**

ADA paratransit service provides shared ride, door-to-door van transportation for individuals with disabilities that prevent them from riding the fixed route bus service.

*Important Note: Prospective passengers must apply for ADA service and be determined as eligible under the guidelines of the Americans with Disabilities Act. Call 800-752-1638 ext. 214 to make an appointment for the in-person application process.*

The PVTA ADA Coordinator can help with questions regarding ADA applications:

Paratransit service is provided throughout the Pioneer Valley within 3/4 mile of a fixed bus route and operates on all days that the fixed-route bus service operates. Paratransit service hours are available by community; for more information call Hulmes at 413-739-7436, toll free 866-277-7741.

**Senior Van Service**

PVTA offers shared ride, demand responsive transportation between 8 a.m. and 4:30 p.m. Monday - Friday on a space available basis with priority given to certified ADA passengers. Passengers may be required to show a photo ID to the driver in order to verify their eligibility prior to boarding the van.

There is no application process, but prospective passengers must call the reservation office at 413-739-7436 for their one-time registration upon booking their first trip. Registration cannot take place unless a trip is booked.

---

**NOTE:** The following applies to both **ADA Paratransit** and **Senior Van Service**.

Rides may be booked as early as 7 days in advance but no later than 4:30 p.m. the day before the trip. Remember to schedule your return trip! Rides may be scheduled up to one hour before or one hour after the requested pick-up time. All trips must be cancelled at least one hour prior to the scheduled pick-up.

Repeated “No Shows” risk suspension of service!

Service is curb-to-curb, and drivers will assist customers with boarding and exiting the vehicle. Door-to-door assistance must be requested when making the trip reservation. If someone requires a Personal Care Attendant (PCA), that person rides for free. Passengers may also bring one traveling companion who must pay the same fare and have the same pickup and drop off location. Trained service animals are welcome on all PVTA vehicles. Animals must ride on the floor.

Riders who require assistance with their bags/parcels must call Hulmes only once to notify them that they are requesting the assistance which will be added to their client file. Drivers are only required to assist with up to 3 standard size carry-on bags with a combined weight not to exceed 25 lbs.

**Cost:** Depending on the pickup and drop off location the fare will be $2.50, $3.00 or $3.50 (subject to change). Tickets are available in $0.50 or $2.50 denominations. When you make a reservation you will be told of the cost of your trip. Complete pricing information is available at www.pvta.com.

You must pay your fare as soon as you board the vehicle. You may pay in cash, with tickets or a combination of the two. If you are paying with cash, please bring exact change, as drivers cannot make change.

Tickets may be purchased from the PVTA website, at various local senior centers or the PVTA Information Office on 2808 Main Street. For more information or for a list of senior centers call the PVTA Customer Service Office.
PVTA Fixed Route Bus Information
Seniors must show a **PVTA Senior ID card** to the driver each bus ride to pay the reduced senior fare. The cost of the ID card is $3.00 and can be purchased at the PVTA Customer Service Center. All PVTA buses and vans meet the requirements of the Americans with Disabilities Act (ADA) for accessible public transit service. PVTA buses have either rear door lifts or front door ramps to allow access for customers using mobility devices such as wheelchairs and scooters (within ADA size and weight limits.) Other ADA accessible features may include special lighting, public announcement systems, priority seating, and securement areas and equipment for mobility devices. PVTA buses also “kneel” to lower the step at the front door.

PVTA Travel Training Program
Travel training is a self-paced process that teaches seniors and people with disabilities how to safely use the public bus. This one-on-one training is provided free-of-charge except for bus fare while training is taking place. Travel destinations are the trainee’s choice and can include: work, school, medical appointments, and recreation sites. Participants’ residence and destination should be on or near a public bus route. For more information call 413-732-6248 ext. 235.

MassHealth Transportation Program
Free non-emergency transportation services to doctor appointments are available for people with MassHealth Standard or CommonHealth if the medical appointment is going to be covered by MassHealth.

The health care provider must authorize the need for transportation by filling out a Prescription for Transportation (Form PT-1). To request that a PT-1 form be faxed to your provider, call MassHealth 800-841-2900 or 800-497-4648 (TTY). **PT-1s are required for each doctor’s office a member attends.** Forms may also be downloaded from www.mass.gov/masshealth.

Benefits Programs

BenefitsCheckUp

Many adults over 55 need help paying for prescription drugs, health care, utilities, and other basic needs. There are over 2,000 federal, state and private benefits programs available to help, but many people don’t know they exist or how to apply.

BenefitsCheckUp is a free web-based service of the National Council on Aging that can help you to identify benefits that could save you money and cover the cost of everyday expenses. After answering a series of questions, you will receive a personalized report describing the programs you may be eligible for. You may apply for many of the programs online or print out application forms at www.benefitscheckup.org/

Fuel Assistance

Fuel assistance for Springfield residents is administered through the New England Farm Workers’ Council. Applications are accepted October through March as long as funds are available.

**End of Life Issues/Planning**

**Advance Directive/Health Care Proxy**

An advance directive is a document you prepare to inform others of your wishes should you become medically incompetent to make your own health care treatment decisions or are unable to communicate because of a serious medical condition or accident. A *health care proxy is the only advance directive legally recognized in Massachusetts*. Under this law, you are able to designate an individual you trust to make medical decisions in the event you are unable to do so. An attorney is not needed to complete one. Forms and instructions are available in hospitals, nursing homes and online. Give copies to your designee, your doctors, and to the hospital you are admitted to.

Living wills are a set of written instructions that outline the patient’s health care wishes at the end of life. *While not legally recognized in Massachusetts*, it is a useful guide for an individual’s health care provider and agent.

**Financial/Estate Planning**

Everyone should have a will, regardless of net worth. It is a legal document that describes how individuals wish their property to be distributed upon death. In the event an individual is getting to the point where they are having increasing difficulty with managing their affairs, some of the following options may be considered:

- **Restricted Bank Account** - Co-signatory accounts require two signatures for withdrawal (unless the individual becomes incompetent and cannot sign). Some restricted accounts have permanent withdrawal orders (the bank issues a monthly allowance to the individual) and/or deposit orders such as direct deposit of benefit checks.

- **Representative Payee For Social Security** - SSA can work with the individual to appoint a person or an organization as a “payee” to receive and cash the monthly public assistance
Financial/Estate Planning Continued

checks (Supplemental Security Income (SSI), Social Security for a recipient deemed incapable of managing his/her own funds. The Veterans Administration handles the Rep Payee process for Veterans Benefits.

- **Power of Attorney** - These are legal documents, which give an individual called an Attorney-In-Fact (usually a spouse, other relative or friend) the power to act on behalf of the “principal” (the person appointing the proxy) to manage all or a specific part of his/her financial affairs. The principal must be competent when this appointment is made. Also, the principal does not lose his/her legal right to act on his/her own behalf. The authority given can range from general powers, allowing the Attorney-In-Fact to handle the person’s entire estate, to limited powers such as handling the checking account only.

- **A “Durable Power of Attorney”** continues the authority beyond the principal’s incompetence. The principal may choose to execute a Springing Durable Power of Attorney, which becomes effective only when the principal has become incompetent.

- **Conservatorship** is a legal process by which a person is appointed by the court to handle the real estate/property and financial matters of the ward that has become unable to do so. A petition for conservatorship must be filed in Probate Court.

- **Guardianship** is a legal process in which the probate court appoints one or more individuals to handle the personal decisions such as living arrangements and medical care of a person determined to be incompetent. The powers delegated to a guardian can vary, so it is advisable to seek professional advice. A petition guardianship must be filed in Probate Court.

- **Trust** - A trust is a legal document through which a trustee holds assets for the benefit of another (beneficiary). There are many types of trusts, and legal advice should be sought.

**NOTE:** Late life planning often requires the expertise of an attorney who specializes in estate planning. To find an elder law attorney near you go to: www.MassNAELA.com

Members of the Massachusetts Chapter of the National Academy of Elder Law Attorneys (MassNAELA) are attorneys certified in elder law who can help with wills, trusts, Health Care Proxies, Powers of Attorney, transfers of real estate, asset protection, and long term care planning including MassHealth application assistance.

Table of Contents
Social Security Administration

The Social Security office administers a variety of programs that provide monthly cash payments and/or insurance. Eligibility varies for each one. The following information is general and is not to be applied to individual case situations.

Social Security Disability Benefits (SSDI): To qualify, individuals must have worked long enough in jobs covered by Social Security and have a medical condition that meets its definition of disability. In general, Social Security will pay monthly cash benefits to people who are unable to work for a year or more because of a disability. Social Security pays only for total disability. No benefits are payable for partial disability or for short-term disability.

Social Security Retirement Benefits: Applicants must have worked long enough at a job covered by Social Security to receive benefits. Individuals born before 1938 who meet all other requirements can receive benefits at age 62. However, if they choose to begin receiving benefits before age 65, their benefits will be reduced to account for the longer period over which they’ll be paid.

Individuals born after 1937 may begin receiving benefits at age 62, but their full retirement age is more than 65. (Full retirement age has increased for everyone born after 1937).

Supplemental Security Income (SSI): Social Security will pay monthly benefits to people with limited income and resources who are age 65 or older, blind, or disabled. Blind or disabled children, as well as adults under 65, may also be eligible.

Survivors Benefits: Qualified dependents or survivors of an insured person may be eligible for Social Security benefits. In depth information may be obtained by contacting the following:

Social Security Administration
70 Bond Street
Springfield, MA 01104
866-964-5061
413-731-1491 TTY
www.ssa.gov

Serves Hampden County excluding Holyoke and Chicopee 01013 zip code. Call to find your local office if outside these areas.

NOTE: Widows, widowers, and/or divorced seniors should check with the Social Security Administration to find out how to file their Social Security claim in order to maximize benefits. For example, a divorcée who did not remarry may want to file under her ex-husband’s earnings. A widow who remarried might choose to collect against her first husband’s benefits.

Taxes

Circuit Breaker Tax Relief

State income tax credit for eligible Massachusetts residents age 65 or older who paid rent or real estate taxes during the tax year. The credit is for senior homeowners and renters who meet income limits and other eligibility requirements. Homeowners may claim the credit if they paid more than 10% of their total income for real estate taxes, including water and sewer debt charges. Renters can count 25% of their rent as real estate tax payments. If you have not filed for Circuit Breaker before, you may file for the current year and the two years previous. You must file a Massachusetts state income tax return to claim the Circuit Breaker Credit, whether or not you normally file one. You must include Schedule CB, Circuit Breaker Credit, with Form 1.

For additional information, contact:

Massachusetts Department of Revenue
Customer Service Bureau
800-392-6089
617-887-MDOR
www.mass.gov/dor

NOTE: Tax forms for previous years can be obtained from tax preparers, the IRS office, or downloaded from the internet. Libraries usually have internet access.
**Property Tax Exemptions & Abatements**

Massachusetts law allows cities and towns to give real estate tax exemptions to seniors 70 years of age and older (65 in some communities), the blind, surviving spouses and minor children, homeowners facing hardships, and certain disabled veterans who meet financial, residency, and other eligibility requirements. For more information contact your local assessor’s office. Search www.mass.gov for additional information. Reductions on water/sewer bills may also be available.

**Tax Prep Program (AARP)**

AARP provides seasonal tax preparation assistance at various sites throughout the community. Call the local Council on Aging or Greater Springfield Senior Services’ Information & Referral department, 413-781-8800.

The Answer To Keeping The Ones You Love At Home.

Our caregivers provide assistance with activities of daily living, housekeeping, transportation to doctors’ visits, and programs that set us apart from the rest.

Music Makes The Heart Sing:
Our Music Therapy Program is a chance for our clients to express themselves in a different way and allows our caregivers to get to know them on a more personal level.

Laughter Is The Best Medicine:
Life is better when you’re laughing, and our team of caregivers are known for keeping a smile on every client’s face through our Laughter Program.

Aromatherapy To Soothe The Soul:
Our Aromatherapy Program provides wonderful comfort to the elderly, and has been a great solution for individuals with dementia. Our trained caregivers use aromatherapy techniques to ease pain, depression and anxiety.

My mom was diagnosed with vascular dementia three years ago. Since the aromatherapy program she’s been very calm and relaxed. She’s the mom I remember.

I’ve never seen my dad this happy since mom was alive. I’m grateful for Golden Years’ Laughter Program.

I love hearing old songs I used to enjoy. They’re like memories you can always go back to.

Hawthorn Elder Care accepts MassHealth, SCOs (Senior Care Options) such as Fallon and Commonwealth Care Alliance, and private insurance.

NOTE: MassHealth (Medicaid) may pay for up to five days-a-week of ADH if the elder is on Community MassHealth, and if the elder’s physician prescribes it as medically necessary. ASAPs (Aging Services Access Points) like Greater Springfield Senior Services, Inc. may pay for one or two days-a-week of adult day health if the elder is a client of its State Home Care program and funding is available. The Veterans Administration may also pay for adult day health for qualified veterans when funding is available.

Disease Diagnostic Centers

Alzheimer’s is only one cause of dementia. There are others, some of which may be reversible. It’s essential to get a clear diagnosis so treatable conditions can be addressed. Diagnostic services are generally covered by Medicare and “medigap” (Medicare supplemental) insurances. A variety of community services are available to elders and their families.

Wandering and Emergency Response Services

Wandering is one of the most common challenging and life-threatening behaviors for a person with Alzheimer’s disease and related disorders. It is also the most terrifying for a caregiver but there are several programs and technology solutions that can help locate someone who may wander or be lost. The Alzheimer’s Association offers several safety services for individuals with Alzheimer’s or related dementia who wander or have a medical emergency.

Comfort Zone & Comfort Zone Check-In
These GPS location management services help families monitor a person with Alzheimer’s or dementia. Families receive alerts if the person wanders from a preset safety perimeter. GPS tracking watches available. For more information and pricing, call 1-800-752-3238 or visit www.alz.org/alzstore.asp

Massachusetts Silver Alert
A Silver Alert can be issued for a missing older adult with dementia. The program exists in both Massachusetts and New Hampshire to help law enforcement officers and others work effectively to locate wandering persons. The Alzheimer’s Association is a partner in that effort. To read more visit: www.alzmass.org/silveralert

MedicAlert and Safe Return®
A call to the 24-hour emergency response line activates a community support network including local Alzheimer Association chapters and law enforcement agencies to help reunite the person who wandered with the caregiver or a family member. With this service, critical medical information is provided to emergency responders. MedicAlert + Safe Return provide an ID bracelet or pendant to be worn by the individual with dementia. Current price is $55 + $7 shipping and handling. Call 888-572-8566 or visit www.alz.org/care/dementiamedical-alert-safe-return

**Hospice**

Hospice is a special concept of care designed to provide comfort and support to patients and their families when a life-limiting illness no longer responds to cure-oriented treatments. The goal of hospice care is to improve the quality of a patient’s last days by offering comfort and dignity, often in his or her own home surrounded by family and friends. In many cases, patients may receive hospice care wherever they live: in their home, retirement home, group home, assisted living facility, nursing home, or other setting. Hospice staff and volunteers offer a specialized knowledge of medical care, including pain management and relief from discomfort. Hospice services may be covered by Medicare, Medicaid, and some HMOs and private insurances.

Long Term Care Ombudsman Program

This is a statewide program which utilizes trained and certified volunteers to help residents of nursing and rest homes resolve complaints about patient care, rights, and other issues affecting their quality of life. The goal of the program is to:

• Protect, promote and educate nursing and rest home residents about their rights.
• Provide information on long term care issues to residents, families, and facility staff.
• Monitor conditions in facilities.
• Work on improving the quality of care and life for residents.

For more information about the program and area nursing homes contact:

Personal Emergency Response/Medical Alarm Systems

Medical alert systems have advanced far beyond the basic pendants that enable a loved one to summon help in the event of a fall. The range of products now includes wristbands, watches and cell phones equipped with emergency buttons or apps. New products can offer wellness checks, remote control for answering the telephone, and dispense medications. The capabilities have expanded to include GPS tracking that enables people to access help when they are away from home. For many people living alone, and for their families living nearby or far away, PERS services can provide a sense of security and peace of mind knowing there is immediate help available in an emergency.

Podiatrists/Foot Care

Most Councils on Aging have regularly scheduled days when podiatrist services are offered at a central location. For more information, call the local Council on Aging or Senior Center.

PEDI-CARE Foot Care
Provides in-home nail clipping and other foot care for non-diabetic seniors by a Registered Nurse. There is a cost per visit. Serves Agawam, East Longmeadow, Longmeadow, Springfield, West Springfield, Brimfield, Monson, Palmer, Springfield and Wilbraham call: 413-567-1023.

NOTE: In some cases, Medicare Part B will partially cover shoes for diabetics. Candidates must have a confirmed diagnosis of diabetes mellitus, and one additional condition such as poor circulation, a history of pre-ulcerative callus formation, or peripheral neuropathy with callus formation. For more information, contact a podiatrist, a specialty shoe store, or medical equipment supply store. Some stores can bill Medicare directly.
Prescription Drugs

For nearly 3 out of every 4 seniors, prescription drugs are the single largest out-of-pocket health care cost. For additional information, contact Greater Springfield Senior Services’ Information and Referral department at 413-781-8800, the local SHINE office or go to the following web sites:

www.benefitscheckup.org
www.medicare.gov
www.needymeds.org
www.rxoutreach.org

MCPHS Pharmacy Outreach Program

Through this free service, Massachusetts residents can speak directly to specialists who can answer questions about prescription medication and how to cover the costs. Call toll-free from 8:30 a.m. - 5 p.m. Monday through Friday: 866-633-1617.

Medicare Part D

Medicare D is health insurance that covers a portion of your prescription drug costs. Anyone who has Medicare A, or is enrolled in Medicare B, can elect to enroll in a Medicare D plan. There is an annual enrollment period from October - December, but there may be circumstances which would allow you to enroll in a D plan outside the annual enrollment period.

Medicare D plans vary in price and coverage. Co-pays vary according to your plan and your prescriptions. For an analysis of which Medicare D plan might be best for you, contact your Council on Aging to speak with a SHINE counselor. An analysis can also be conducted at www.medicare.gov, at some pharmacies, and by calling MassMedLine, 866-633-1617

Prescription Advantage

This is a state sponsored prescription drug assistance plan for Massachusetts residents age 65 and older, and younger individuals with disabilities who meet income and employment guidelines. Immigration status does not affect eligibility. Open enrollment is year round. Persons with MassHealth (Medicaid) are not eligible.

For Medicare recipients, Prescription Advantage offers assistance to help pay the cost of medications by subsidizing co-pays and limiting annual out of pocket costs (“donut hole” protection). The amount of the subsidy depends on the individual’s income. To qualify, Medicare recipients must join a Medicare D plan or a Medicare Advantage plan with drug coverage.

For non-Medicare recipients without drug coverage, Prescription Advantage may offer primary prescription drug coverage. Members pay quarterly deductibles and prescription co-pays based on a sliding fee scale.

For more information and to apply call 1-800- AGE-INFO, a SHINE counselor, or go to www.mass.gov/elders

Veteran’s Benefits

Registered veterans may obtain prescription drugs at reduced rates. Most prescriptions can be filled at a VA hospital or clinic. Contact the local VA health care facility, Veteran’s Agent office, or 877-222-VETS.

NOTE: Discount stores like Walmart, Target and Kroger have begun selling 30 and 90-day supplies of certain generic drugs at greatly reduced prices. Some discounters might offer drugs that others don’t, so call or visit their websites to see if your medication is on their list.
Rehabilitation Services

Older adults who have experienced a sudden change in their physical abilities resulting from a stroke, heart attack, fracture, or any other unexpected illness or injury should remember that it may not be a permanent situation. Rehabilitation therapy can often help patients regain much of their prior mobility. From relearning speech patterns to strengthening leg and arm muscles, rehabilitation can take the patient a long way down the road to recovery. These services are usually accessed at the point of hospital discharge and are covered by Medicare. In addition to the rehab hospitals listed below, most skilled nursing facilities offer rehab programs.

Respite Programs

Respite care services are designed to give overwhelmed caregivers a break from their responsibilities. In-home services can provide a few hours a day or week of respite, allowing the caregiver to go out and do errands or have time for themselves.

Adult Day Care Programs provide care during the day, usually between 8:30 a.m. and 3:30 p.m. Refer to “Day Care” listing in the Health section.

Some nursing homes can accommodate short term respite stays. This may be an option for elders needing more care than can be provided in the home. Rates for this type of respite vary.

Financial Aide for Private Home Owners

A Reverse Mortgage is a way to convert your home equity into cash. They allow seniors to use the equity in their homes to provide ready cash for their expenses, and are an alternative to selling the home. The homeowner maintains ownership of the home. Payment may be received in monthly installments or in one large sum. The income derived from a reverse mortgage is not taxable, and is not counted for the purposes of determining eligibility for benefits programs such as fuel assistance. If taken in a lump sum, however, it will count as an asset for MassHealth.

To qualify, you must be 62 years of age or older and own your home (or have very little mortgage left). The loan must be repaid when the borrower no longer lives in the home. In the event of death, heirs can choose to repay the loan and keep the house, or sell the house and repay the loan. For more information visit www.hud.gov.

87 Hale Street
Lowell, MA 02111

www.elderhomeowners.org

This nonprofit organization provides in-home counseling services to assess the needs of elders and explore ways to preserve their homes and independence. In addition to reverse mortgages, whereby homeowners secure funds by borrowing against the value of their homes, other issues are explored such as property taxes, consumer debt, equity loans and foreclosure prevention.

Other financial services are listed below. Seek assistance from a professional before making any final decisions.

Sale/Leaseback Plan provides that the house is sold with the owner receiving from the buyer the rights to a lifetime lease at a reasonable rent.

Life Estate refers to when an older adult transfers ownership of their property to another individual but still remains in control of the property until their death.

Refinancing Options include long term financing through a first or second mortgage.

Housing with Supportive Services

Adult Foster Care

Provides a community-care setting for disabled adults 16 years of age or older who need ongoing assistance with activities of daily living (ADLs) and cannot safely live alone. AFC program staff matches eligible participants with prescreened AFC care providers or work with pre-existing caregiver matches. Caregivers may be family members (except legally responsible relatives, including spouses), or non-family members. Host families are paid a tax-exempt monthly stipend. Participants must have MassHealth and chronic health conditions linked to their need for ADL assistance.

For more information, see “Homemaker & Other Home Health Services-MassHealth Funded” in the Community Resources section.
Assisted Living Facilities

This type of housing is paid for privately. It is designed to support “aging in place” with service packages that vary depending on the individual’s ability to function independently. Residents may be offered a broad spectrum of support services including meals, housekeeping, laundry, and transportation. Some facilities offer memory care programs as well. Social, educational, and wellness activities may also be available. Some of these communities are affiliated with a skilled nursing facility or may have a nursing home on site. Contact the facility directly to inquire about rentals, availability of subsidies, and information on pricing and services. For additional information on assisted living, go to: www.mass-ala.org.

Congregate Housing
Congregate housing is a shared living environment for individuals with physical limitations not requiring 24-hour supervision or medical care. It is ideal for people who no longer feel comfortable living alone but who still wish to be independent and have privacy. Tenants have their own private bedroom/sitting area and share a large kitchen, dining room and living room. Supportive services may include homemaker, personal care and a shared meal program.

The following congregate housing facilities are owned by the local Housing Authority and sponsored by Greater Springfield Senior Services. Rent is subsidized, so residents pay about one-third of their monthly income. Applicants are subject to the local Housing Authority’s income guidelines. For more information call Greater Springfield Senior Services’ Congregate Housing Coordinator, 413-781-8800 ext. 182.

Nursing Homes
See Health section, page 51.

Rest Homes
For persons who are fairly independent but need some form of assistance, rest homes may be an option.

Rest homes provide meals, housekeeping, some assistance with bathing and dressing and intermittent nursing services. They do not provide skilled care and are not for those who are bed bound or need 24-hour supervision and assistance.

Rest homes are usually more affordable than assisted living facilities. Rest home residents either pay privately or their rent is paid for by Supplemental Security Income (SSI). For more information, contact Greater Springfield Senior Services’ Long Term Care Ombudsman program at 413-781-8800.
Housing Rehabilitation/Modification Programs

Long-term, low-interest, and no-interest loans are available for homeowners to modify, repair or expand their home. Some cities may have grants available for home improvement.

Community Development Block Grants

Contact the city or town office for information on current availability and application procedures.

FHA 203K Rehabilitation Mortgage Program

This federal program is available for elders or the disabled in need of wide doorways, grab bars, and other modifications or repairs. For a list of authorized 203K authorized lenders, contact the Boston HUD office, 617-994-8200 or www.hud.gov.

Home Modification Loan Program

The state-funded program provides loans to make modifications to the primary, permanent residence of elders, adults with disabilities, and families with children with disabilities. The modifications must be necessary to allow the beneficiary to remain in the home, and must relate to their ability to function on a daily basis. Landlords with fewer than 10 units may be eligible for a 3% loan for a tenant. NOTE: If a tenant is disabled and the housing consists of 10 or more units, the landlord is responsible for making reasonable modifications such as adding grab bars, widening doorways, building a ramp up to five steps, and installing a flashing-light doorbell. For more information on landlord responsibilities to the elderly and handicapped, contact the Massachusetts Office on Disabilities, 800-322-2020.
Housing Services (Legal Concerns)

There are a number of resources for tenants who have issues with their landlord and feel they need legal assistance or mediation services. There are also services for seniors who are landlords having difficulty with tenants. The local Board of Health or housing code enforcement department can intervene if there are problems with: heat, insects or rodents, hot water, snow removal, lead paint or structural elements.

If legal assistance is needed for a housing court appearance, contact Western Massachusetts Legal Services, who will assist the tenant who doesn’t have the financial resources to hire a lawyer. Subsidized Housing

For low to moderate income elders, subsidized housing can be a way to remain independent and live in a senior community. These buildings are subsidized by the state or federal government, and are open to the disabled and the elderly. The services offered to residents can vary. Some locations have congregate meal sites, community activities, and a daytime social worker.

To be eligible for subsidized housing, the individual must be at least 60 years old or disabled or handicapped, and meet the financial guidelines. Rental payments are usually set at about 30% of the monthly income.

The following is a listing of elderly housing complexes by town. For more information on apartment availability, call the telephone number listed with the complex.

MEDICAL INSURANCE

Confused about health insurance options? Not sure the bill was correct? A service that was supposed to be covered wasn’t? For the answers to these questions and more, call the local Council on Aging SHINE volunteer or the main SHINE office in Springfield, 413-750-2893.

Long Term Care Insurance

Long term care insurance (LTC) can protect an individual’s income and assets if they enter a nursing home or require home health care or home care. Typically, these services are not covered by Medicare, a Medigap policy or any other health insurance plan.

Long term care policies contain strict restrictions and limitations on benefits, so it’s very important to become an educated consumer before purchasing one. Each policy differs, and not all provide both nursing home and home care coverage. Other factors to consider are deductibles, inflation protections, and the affordability of the premium once the policy holder retires.

LTC insurance isn’t for everyone. It usually makes the most sense for people who have substantial income and assets. Therefore, it’s important to learn as much about these products before deciding to make a purchase. For additional information contact the local SHINE program or:

Massachusetts Health Connector

The Health Connector is a Massachusetts-based health insurance marketplace where individuals, families, and small businesses can shop for affordable health insurance and dental coverage plans that meet both state and national coverage standards under the Affordable Care Act (ACA).

On the Health Connector website, consumers can compare unsubsidized, qualified health plans and enroll in coverage that best meets their needs and budget. Monthly fees are based on income. State-subsidized health plans for low income individuals and families, known as ConnectorCare plans, are provided on a sliding income scale.

There is a three-month open enrollment period every Fall. It may be possible to enroll at other times of the year if a person is having a “qualifying event.” For more information or application assistance, contact:

**Medicaid/MassHealth**

Medicaid (referred to as MassHealth in Massachusetts) provides health care coverage for low income people regardless of age. Applicants must meet both income and asset eligibility guidelines. There are two different types of Medicaid:

**“Community” Medicaid** is a medical insurance for seniors living in the community, at home or in senior housing.

**“Nursing Home” Medicaid** pays for nursing home stays when financial resources have been exhausted and the person needs 24-hour supervision or nursing care. To apply for either Medicaid, contact:

**NOTE:** If you apply for MassHealth and receive a denial, you are entitled to an independent review of the denial through a scheduled “fair hearing.” An appeals form to request this will be enclosed with the denial notice. You have to file a request within 30 days of the date on your denial notice. Hearings in the Greater Springfield area are held at the MassHealth Enrollment Center, 88 Industry Avenue, Springfield.

**Medicare**

**Original Medicare Plan**

Medicare is a health insurance program for people age 65 and older and people under age 65 who qualify on the basis of disability or other special situation. Under this plan you may go to any doctor or specialist who accepts Medicare or to any hospital or facility that offers Medicare-covered services. Medicare has two parts, A and B:

**Medicare Part A** helps cover inpatient care in hospitals, and up to 100 days for rehab in a nursing home under certain conditions. It does not pay for long-term care in a nursing home. It also helps cover hospice care and some home health care. Beneficiaries must meet certain conditions to get these benefits. Part A is free if you or your spouse has made payroll contributions to Social Security for at least 10 years (40 quarters). There are deductibles and co-pays for services, unless you purchase a Medicare Supplement or Medigap insurance.

**Medicare Part B** helps cover doctors’ services and outpatient care. It also covers some other medical services that Part A doesn’t cover, such as some of the services of physical and occupational therapists, and some home health care. Most people pay a monthly premium for Part B, which is automatically deducted from their Social Security payment. You do not have to enroll in Medicare B if you are still employed or if you are married to a working spouse and covered by his or her employer’s insurance. However, if you don’t have employer’s coverage and do not enroll at age 65, you will pay a penalty in the form of a higher monthly premium.

For more detailed information about Medicare, go to www.Medicare.gov or call a SHINE counselor, 413-750-2893, or GSSSI’s Information & Referral Department, 413-781-8800.
NOTE: If you are admitted to the hospital under “observation care” and then transferred to a nursing home for rehab, Medicare may not pay for the nursing home/rehab stay...you would be responsible for paying the bill. So be sure to find out if the hospital admitted you as “inpatient” or “under observation.” Some Medicare Advantage plans may pick up the tab, however. It pays to review your insurance coverage in advance. For more info on observational status: www.medicareadvocacy.org. And, if you only have Medicare Part A and not Part B, you may be billed for some hospital expenses as well!

**Medicare Advantage**

This type of Medicare health plan is offered by private companies that contract with Medicare to provide you with your Part A and Part B benefits. To enroll, you must already have Medicare A and B and live in the plan’s geographical coverage area. Most Medicare Advantage Plans offer prescription drug coverage, so you wouldn’t need to enroll in a Medicare D plan. You also won’t need Medigap, a Medicare supplemental insurance. Medicare Advantage plans often include routine checkups, dental services, eye care, and hearing tests.

They usually charge a monthly fee in addition to the Medicare Part B premium. Depending on your health care needs, Medicare Advantage plans may be less expensive overall than the Original Medicare plan. Before you join, make sure you know which doctors and hospitals are included, what rules you must follow, what extra benefits are offered, and what the costs will be. If the plan offers the doctors and services you want at a cost you can afford, it may be a good choice for you. Not all Medicare Advantage Plans work the same way, so before you join compare the plans in your area. For more information, go to www.medicare.gov, or call the local SHINE office.

Medicare Supplemental Insurance/Medigap

These policies are sold by private companies that must follow certain rules set by Medicare and the state of Massachusetts. All Massachusetts Medigap policies must include hospital coinsurance coverage, 365 extra days of full hospitalization coverage, and payment of the 20% coinsurance costs for medical care. Medigap policies may also offer benefits not included in Medicare, such as routine check-ups or emergency care out of the country. It helps pay for inpatient hospital care, skilled nursing care, hospice care and other services. Medigap plans do not include prescription drug coverage. One Care

One Care is an option for people with disabilities between the ages of 21 and 64 to get the full set of services provided by both MassHealth and Medicare. Enrollees have a care coordinator to make sure their care needs are met. The care coordinator helps you coordinate care from your doctors, behavioral health specialists, substance abuse clinicians, long term care services and other community services. All services are provided by in-network providers, so check with your doctors to see if they accept One Care insurance before enrolling.

Program of All-Inclusive Care for the Elderly (PACE)
PACE is administered by MassHealth and Medicare to provide a wide range of medical, social, recreational and wellness services to eligible participants. The goal of PACE is to allow participants to live safely in their homes instead of in nursing homes.

The PACE model is centered on the core belief that given a choice, most elders, the disabled and their families would choose to receive care in their homes and communities rather than a nursing home.

PACE programs have interdisciplinary teams, individualized care plans and a day program center which serves as the hub of services and activities, including a doctor’s office, rehab/gym, social work office and an activities center.

To enroll in a PACE program, you must be 55 years or older, and be significantly frail. PACE, like an HMO, has a network of providers that you must use if you want services to be covered.

Senior Care Options (SCO)
SCO is a comprehensive health care plan that covers all of the services reimbursable under Medicare and MassHealth through a senior care organization and its network of providers. It was created to offer seniors aged 65 or older the opportunity to receive quality health care that combines health services with social support services. It is open to seniors who are eligible for MassHealth Standard; live in the service area of a senior care organization; do not have end-stage renal disease (ESRD); and agree to receive covered health services exclusively through the SCO.

Who is a Caregiver?
A caregiver may be an adult child, relative, spouse, partner, friend, neighbor, or anyone who provides emotional and/or physical assistance.

• **Primary Caregiver**: Provides regular assistance with activities of daily living, assists in making decisions, and may at times act as the care recipients’ representative.

• **Long Distance Caregiver**: Lives too far away to provide regular assistance, possibly out of state and may depend on others to help with direct caregiving tasks.

• **Grandparent as a Caregiver**: Grandparents or relative caregivers, age 55 and older, raising a grandchild under 18 years of age or a grandchild over 18 years of age with a developmental disability.

Caregiving can be very rewarding and at times overwhelming. Identifying needs, locating resources, coordinating services and creating supports can be a challenge.

Planning for the Caregiver Role
It is important to begin by first determining the individual’s needs. Many issues can and should be discussed before a crisis occurs but this is not always possible.

Consider the following questions:

• Has the individual experienced a sudden crisis (a stroke or fall) or has a medical situation developed gradually (dementia, heart condition, arthritis), or have needs increased due to the natural process of aging?

• Are there physical limitations, memory problems or both?

• Is assistance needed with any of the following:
  - Housework, Laundry, Meals
  - Bathing, Dressing, Toileting
  - Shopping, Transportation
  - Bill Paying, Financial Planning, Legal Issues
  - Medication Management, Medical Appointments
  - Home Safety
  - Socialization, Emotional Support

• Would the individual consider help from a homemaker, companion, family member, or personal care worker?

• Is attending a social or adult day health center an option?

• Are services needed on an interim, daily or 24 hour basis?

• What future housing arrangements would be most appropriate, and what would the care recipient prefer?

• Is there sufficient income to meet short and long term needs? Are there insurances or other assets to pay for services?

• Has a Durable Power of Attorney been designated?

• Is there a completed Health Care Proxy?
Helpful guidelines as you begin your caregiver journey:

- Clarify your caregiving role.
- Be wary of taking on the role of “rescuer” or a “dictator”.
- Encourage the individual to do what they are able to do.
- Involve the individual in decision making when possible.
- Connect with the appropriate community resources including family and friends.
- Develop a plan, but keep in mind it may change.
- Set a trial period and monitor the process.

Finding your way through the maze of government agencies and community services can be an overwhelming process.

- Write down your questions.
- Be organized, brief, and to the point.
- Record the name of the contact person with whom you speak and the date.
- Record the responses to your questions.
- Use each contact as a resource; ask what other services exist and what websites to review. If you have not received satisfactory answers, ask to speak to a supervisor.

When a Care Recipient Resists Assistance

Individuals sometime resist accepting assistance because it often involves losing independence and giving up control over certain aspects of their lives. Needing help may be perceived as an admission of weakness or failure. An individual may feel that the care would be too expensive, and may have privacy issues regarding financial disclosure. The need for assistance may be seen as one step towards moving to another setting such as a nursing home.

Tips that may encourage an individual to accept assistance

- Involve the person in decision-making.
- Be respectful. If possible, the individual should still be in charge of their own care. Your role may be to facilitate decisions rather than to make them.
- Watch for openings in the conversation. For example, “you mentioned feeling tired. Are you having trouble keeping up with your chores”?
- If the person doesn’t think they need help, give examples of instances that have caused you concern.
- Present the individual with multiple options.

If the person still refuses care

- If this is a health or safety issue, be gentle but firm. For example: “This has to be addressed” or “We can’t put it off any longer”.
- Strategize how to help the individual accept care by calling a family meeting.
- Ask a trusted person, such as a close friend, relative, doctor or clergy to step in.

Don’t Give Up

- Look at services in stages – one service at a time.
- Try less intrusive services first (on a trial basis).
  - Meals on Wheels
  - Personal Emergency Response System
  - Volunteer/Companion
  - Transportation
- An individual may at first refuse, but then over time agree to accept care.
- Keep offering and providing whatever care is acceptable.
- Look for an opportunity. You may be able to provide help during an illness or following a hospitalization.

Most important: be positive, persistent & patient!

Evaluate when a person can no longer make safe decisions

Some signs of concern include:

- Not eating, bathing, or providing basic self-care.
- Not paying bills or answering mail.
• Giving away money inappropriately.
• Doing dangerous things such as leaving on stove burners
• Showing symptoms of memory loss or confusion.

If the individual is exhibiting these signs or if you have any other concerns, contact one of the agencies on the inside cover for assistance.

Caring for the Caregiver

While caregiving offers many rewards it can also be emotionally and physically exhausting. A caregiver can easily neglect their own physical and emotional health putting them at risk and unable to care for another person. Do not judge yourself as a caregiver based on the response of the individual. If you are educating yourself and asking for help when needed, you are doing the best you can. Remember everyone has bad hours, days and weeks. In order to take care of someone else it is important to take care of yourself first.

How to Take Care of Yourself

• Prioritize your caregiving responsibilities.
• Be realistic. Don’t feel you have to do everything yourself.
• Keep in touch with friends. Don’t isolate yourself.
• Ask for help. Often friends and relatives need you to identify specific ways they can be helpful.
• Acknowledge your limitations. Know when the stresses are becoming too much to bear and that you need to get your strength and your objectivity back.
• Educate yourself about the condition of the person for whom you are caring. Expect some decline and do not blame yourself for it.

• Allow yourself to grieve the losses that accompany illness.
• Rest, exercise; learn stress management and relaxation techniques; get enough sleep.
• Attend a caregiver support group, in person or online.
• Keep appointments with your medical providers.
• Do something special for yourself on a regular basis.
• Seek help when needed.

Don’t lose your sense of humor. Laugh, even if it is while you are alone. Just do it!

The Caregivers’ Emotional Health

Caring for a loved one can bring much joy and satisfaction. It also can be associated with intense feelings of fear, worry, sadness and grief. It is normal for caregivers to experience such emotions in response to coping with the tasks of caregiving. If feelings of overwhelming anxiety or depression do not go away, speak with your doctor. Whatever the cause, depression and anxiety are both treatable conditions.

Caregivers should seek professional help if any of these symptoms interfere with their everyday life:

• Feelings of worthlessness
• Extreme guilt
• Persistent hopelessness
• Noticeable changes in sleep patterns or appetite
• Loss of energy or pleasure in ordinary activities
• Uncharacteristic withdrawal from others
• Thoughts of death or suicide
• Tearfulness or excessive crying

Support Groups

Support groups provide a place to exchange information, share experiences, problem solve and learn about resources. Caregivers report how valuable it is to meet others who are facing similar situations. Although some people do not like to talk about their problems, knowing that others are experiencing the same kinds of frustration and stress can bring great relief. It helps to know you are not alone.

For more information about support groups in your area see page 10 of ElderGuide.
Holding a Family Meeting

Who attends the family meeting will be different for each family. It is important to include everyone that is or will be involved in the individual’s care including family, friends, neighbors, paid caregivers and professionals. The more people involved in the care the less isolated the caregiver will feel. The individual receiving care should be involved in this meeting unless they have a condition which makes it difficult for them to participate.

Tips to a successful family meeting

• Prepare an agenda, send it out ahead of time and allow for input from others. Agenda items may include: daily caregiving needs, living arrangements, financial concerns, what support role each person will play.
• Consider arranging for an outside facilitator.
• If an individual cannot attend the meeting use technology to involve them, such as video conference or telephone communication.
• Brainstorm solutions to the current and future issues. Not all issues can be solved; work to find common ground.
• Discuss important decisions that must be made and who will make each of them.
• Be sure to allow everyone at the meeting to communicate their own thoughts, feelings and needs.
• Develop a plan and arrange for follow up meetings.

The goal of a family meeting is to work as a team to provide the best care for the individual even if there are conflicts among members.

Long Distance Caregiving

Long distance caregivers are caregivers who live a distance away such as in another town or state from the person that requires care. This can create added challenges.

• Stay in touch with the care recipient on a regular basis.
• Maintain an updated list of medical and emergency information.
• Utilize your visits to attend important appointments, run errands and socialize with the individual.
• Identify a trusted friend or neighbor to check in on the individual.
• Arrange for a professional geriatric care manager to set up and monitor services.
• While visiting, assess the situation for signs of safety issues, self-neglect or elder abuse (i.e. financial exploitation, emotional, verbal, physical or sexual abuse).
• Keep in contact with the primary caregiver who is local (i.e. offer emotional support or help manage finances).

Eldercare Locator: The Eldercare Locator connects older adults and their caregivers with information about services throughout the United States. The service links those who need assistance with state and local Area Agencies on Aging and community-based organizations.
